

Professional Growth

Growth Class Checklist

During your class use this checklist to help students align your teaching with their professional growth goals.

At the beginning of class remind your students

- This class is to help them with their professional growth goals.
- Building valuable skills is a key growth goal
- My goal is to show you how to _____

Stop 10 minutes before the end of the class so students can write down

- I learned how to _____
- The next skills I need to learn are how to _____
- How does this work contribute to my professional growth?
- Who can I team up with to help each other?

At the end, remind students to add these steps to their professional growth goals
